WATER RIGHTS
SALT LAKE

Dear Mr. Olds

In responce to the meeting held in Kamas on July 29th regarding Kamas Valley Water. I am writing to express concern. that wells being drilled in Weber Canyon above Oakley are getting Water exchanges from Wanship reservoir. Irrigators from the weber river above Wanship are concerned, ~~that~~ and are of the opinion that these exchanges should be released from the Smith and Morehouse reservoir, Thus not adverse effecting the river flow above Wanship.

Thank You for Considering our Concern
