Said water to be diverted from Sevier River at a point 3070 feet west and 460 feet south of the northeast corner of sec. 27, T. 25 S., R 4 W., into the Sevier Valley Canal, and to be used upon lands located in Sevier County.

Any or all waters to be distributed as herein provided under said rights (a) to (1) inclusive, may, at the option of the owners and users thereof, be stored in the reservoir of the Piute Reservoir & Irrigation Company during any or all of said period from April 1st to September 30th both inclusive, in each and every year, and shall be stored and released from said reservoir without further compensation therefor than as herein provided.

All said waters so stored shall be released to the owners and users thereof, without diminution or delay, on their demand, at any time and from time to time, as herein provided, and be distributed under the supervision of the Sevier River Water Commissioner.

All waters so stored shall be so released and distributed at any time between April 1st and November 1st of each year, provided that:

(a) Owners and users of said rights shall have the right to draw on anticipated storage credits commencing with March 1st and ending with April 30th of any year.

(b) Water drawn upon anticipated storage credit shall not exceed that amount which such user or owner can and will safely repay during the period of time storage water is being released from Piute Reservoir and turned down to Sevier Bridge Reservoir.

(c) Any water drawn against anticipated storage shall be drawn from water stored in the Piute Reservoir by the Piute Reservoir & Irrigation Company and the Sevier Bridge Reservoir owners under their storage filings, and not required by the owners thereof for immediate use.

(d) The Sevier River Water Commissioner, or Commissioners, if more than one Commissioner is acting, shall determine the amount of water that each owner or user may safely draw as anticipated storage credit, but in no event shall the total quantity drawn by all of said owners or users exceed 3000 acre feet. And it shall be the duty of said Commissioner, or Commissioners, to so regulate the use of the water by said owners or users, that any water drawn against anticipated storage credit will be repaid from any water to which said users may be entitled during the period of time storage water is being released from the Piute Reservoir and turned down to the Sevier Bridge Reservoir.

(e) All water stored by said owners and users not so released and remaining in said reservoir on the first of November of any year shall be forfeited to the Piute
