of which said creeks constitute the indivisible system known as the Springville Irrigation System; and whenever the water of all of said creeks belonging to said system as above stated is sufficient and not more than sufficient to irrigate six thousand six hundred and seventy one (6671) acres of land when said water is beneficially used, then the following named persons, parties to this action, to wit: D. P. Dibble et al ******* are entitled to water sufficient to irrigate two thousand eight hundrend and two (2802) acres of land; and whenever the water of all of said creeks in said system so diminish that there is sufficient and not more than sufficient to irrigate in all four thousand three hundred and forty (4340) acres of land, then said persons last above named are entitled to sufficient of said water ot irrigate eleven hundred seventy five (1175) acres of land; and whenever the water of said creeks further diminishes so that there is sufficient and not more than sufficient water to irrigate two thousand eight hundred and sixty (2860) acres of land, the said persons last above mentioned are entitled to sufficient water to irrigate six hundred and fifty (650) acres of land; and the plaintiff herein for itself and the other persons in said system represented by its trustees, is entitled to the use of all the remainder of water of said creeks for the irrigation of the lands of said persons and for other beneficial purposes.

4. That each acre so irrigated within said system is entitled to an equal quantity of water both as to time and quantity with any other acre so irrigated therein.

5. That whenever the water of said system is sufficient and not more than sufficient to irrigate said two thousand eight hundred and sixty (2860) acres of land as above set forth, the rights to the use thereof shall be denominated primary rights; and whenever the waters of said system are more than sufficient to irrigate said two thousand eight hundred and sixty acres, and not exceeding four thousand three hundred and forty (4340 acres of said land, the said excess of waters more than sufficient to irrigate the said two thousand eight hundred and sixty acres shall be denominated Secondary Rights; and whenever the waters of said system are more than sufficient to irrigate said four thousand three hundred and forty acres, the waters in excess thereof shall be denominated Third Class Rights; and none of the above named classes shall
