Oct. 22, 1998

Dear Mr. Fotheringham,

It has come to my attention that a domestic culinary well, owned by Mr. Michael Phillips, has again been opened and used for irrigational purposes. It is our opinion and observation that the well is being used in a way that is non-conforming to the domestic, culinary right that was issued. The abuse of this right has happened frequently, and in our in opinion is unfair to the primary right-holders in the area. We simply ~~ask that~~ and respectfully request that your office address, in the most appropriate manner, this situation.

Respectfully,
Jeffry R. Dittins
Chairman, Summit Creek Commission
