Mr Frank Reese
chief accountant
State Engineer's Office
Salt Lake City 14, Utah

Dear Mr Reese;

Enclosed please find list of primary + secondary water rights of the Virgin river Distribution system to be used for assessment purposes. Ray Schmitz + I worked this out as near correct as we can.

You will notice that 3.33 c.f.s of secondary water has been added to Clarence Lamoreau + Alma Wright and to the account of Ervil Sanders (now own by William Barlocker + Ferron Losee). This is the wat they own in Kolob reservior. They obtained it from the Virgin Canal Co. It is a 10 c.f.s. right of class 3 w

If you have further questions please call on me.

Yours truly,
Lawrence Hinton
