RE: Public Meeting held in Tooele County, April 24, 2008.

Mr. Olds

The letter is written in response to the public meeting that was held in Tooele County on April 24, 2008. Let me start by stating my agreement with a distinct boundary line. I believe that it is important for those who hold rights in the valley to understand what those rights may be used for.

My second comment is directed to your public notice that was distributed through out the community. The last sentence of this notice reads "Guidelines developed as a result of this meeting will be effective on the date of the notice. (April 16, 2008). I would hope that change applications filed before this date would receive consideration of approval. As a water right holder, it is important to make decisions based on past recommendations that the division has approved. I welcome the boundary line as recommended, I will, in the future make decisions based on this. This does however put a burden on those change applications that were filed in good faith prior to the April 16, 2008 date.

I would appreciate these comments to be considered when making the new policy for Tooele County.

Regards,

Joseph White
