

September 6, 1955

Mr. Joseph M. Tracy
State Engineer
Utah State Capitol
Salt Lake City 1, Utah

Dear Mr. Tracy:

Under date of February 2, 1949, the waters of the Weber River and tributaries, and the drainage area of certain streams on the Wasatch mountain front in Davis and Box Elder counties were withdrawn from appropriation pending further investigation of the Weber Basin Project, particularly with reference to proposed points of diversion, and the exact location of the dams and other structures. That investigation has now been completed, and the withdrawal proclamation has served its purpose. It is my information that the Bureau of Reclamation is now prepared to file the necessary applications for the Project, and this District is ready to file some applications for underground water in the Weber River drainage area.

Under the circumstances, it is requested that action be taken for restoration of the Weber River and other sources mentioned in the proclamation. If you concur in this suggestion your early attention to this matter will be appreciated.

Yours very truly,

/s/ E. J. Fjeldsted
