Stewart and Stewart, appearing as attorneys for Sarah E. Stewart and South Jordan Milling Company; and Messrs. Bennett, Harkness, Howat, Sutherland and Van Cott, appearing as attorneys for the United States Mining Company; the court having heard the evidence and being fully advised in the premises, finds the following facts:

FIRST.

That the Jordan river is a natural stream of water, having its source in Utah County, Utah, at the northern end of Utah Lake, and being the only outlet thereof; that from its said source, it flows in a general northerly direction through said Utah County, and through a portion of Salt Lake County, Utah, and empties into Great Salt Lake; that the lands adjacent to its banks in Salt Lake County are capable
