

2 c.f.s. Priority: 1882. Period of Use: July 1 to October 1.  
STORAGE:

315 ac. ft. Priority: 1882. Period of Use: July 1 to Sept. 1st. Period of Storage: October 1st to July 1st. Point of Diversion: To be diverted from Birch Creek and stored in three reservoirs, as follows:

(1) Twin Lake Reservoir, situated in Sec. 29, T. 19 S., R. 3 E., having a capacity of 175 ac. ft.

(2) Dry Hole Reservoir, situated in said Sec. 29, having a capacity of 125 ac. ft.

(3) New Field Reservoir, situated in Sec. 21 of the aforesaid Township and Range, having a capacity of 15 ac. ft.

The above described water to be used as a supplemental supply to irrigate lands of the stockholders of Twin Lake Reservoir Company, under the Mayfield Irrigation Company.

Said water to be prorated to the owners of 333 shares of stock in proportion as each owner's shares bears to the total number of shares:

Name	Shares
