

to any particular rights, a maximum and a minimum quantity, the maximum quantity has been determined on a duty of 40 acres to the second foot during the high water period which is to be construed to be the period wherein the water supply is sufficient to give to all lands upon the particular tributary or stream or source a full supply on such duty irrespective of priority. After the water supply is insufficient to fill the rights as hereinabove stated, then the duty shall be raised to 60 acres to the second foot and shall be distributed upon such basis until the supply of such stream or source is insufficient to fill all rights under the 60 acre to the second foot duty, then the junior or subsequent appropriations, or rights, shall be barred in order of priority from further diverting water until said source of supply again increases to such volume as will fill such subsequent appropriator's rights as hereinabove set out, providing, however, that said increase in flow comes within the period of use set out in this decree.

CHAPTER SIX

IT IS FURTHER ORDERED, ADJUDGED and DECREED that the Piute Reservoir and Irrigation Company, a corporation, State Board of Land Commissioners of the State of Utah, (herein called the owners of Piute Reservoir) ; and the Abraham Irrigation Company, a corporation, Deseret Irrigation Company, a corporation, Delta Canal Company, a corporation, Central Utah Water Company, a corporation, and Melville Irrigation Company, a corporation, (herein called the owners of the Sevier Bridge Reservoir), are the owners of the right to store and use all of the waters yielded by the said Sevier River for satisfying their rights under applications designated as No. 296, made March 14, 1905; No. 1534, made August 16, 1907; and No. 1624, made October 21, 1907; in the office of the State Engineer of the State of Utah, and under the so-called Hawley Filing made by Jacob C. Hawley on August 26, 1902, and under applications to appropriate water designated as No. 1367 A, made May 10, 1907; No. 1367 A-1, made May 10, 1907; and No. 4562, made March 19, 1912; in the office of the State Engineer of the State of Utah. It is further ordered, adjudged and decreed that the record owner or owners of each of said applications and filings on which final proof has not been made shall make final proof of appropriation of water to a beneficial use and purpose, at its own cost and expense, within the time prescribed by law or any extension or extensions of said time authorized by the order of any court having jurisdiction; and in the event of a failure of any of said parties so to do, any of the other owners of said Piute Reservoir or said Sevier Bridge Reservoir may at any time within 60 days prior to the time allowed for making such final proof do so at the expense of the defaulting party, unless said parties shall all agree in writing to the abandonment of any said applications. The final proof herein provided for, and any change of place or storage or use of any water in-
