

storage, and there shall be added any water used by direct flow under any of the said filing, and the balance, after such deductions respectively, shall constitute the water available for division under this decree. Whenever it shall appear on the 15th day of April of any year that there is stored in the said Sevier Bridge Reservoir, after proper allowance for the above mentioned additions and deductions, less than its first priority of 89,280 acre feet, or less than its proportion of the total storage allocated to it under this decree, then the difference between said lesser amount and the allotment to the said Sevier Bridge Reservoir under this decree, as determined on the 15th of April of each year, less the amount thereafter available to the Sevier Bridge Reservoir, under said filings from the flow of the river shall be by the owners of the Piute Reservoir delivered into the Sevier Bridge Reservoir without deduction or loss, when and as needed by the owners of water rights under the Sevier Bridge Reservoir, and the owners of Sevier Bridge Reservoir shall be the exclusive judges of their needs and necessities. It is the intention under this decree, however, that storage hereunder shall so far as practicable be made concurrently, and that any such excess water shall be held in the Piute Reservoir as long as practicable, consistent with the necessities of the Sevier Bridge water users, in order that the make of the river, in excess of primary rights, may be given as long a time as possible to supply such deficiency. Water owing Sevier Bridge Reservoir by Piute Reservoir shall be measured as close to the back water of Sevier Bridge Reservoir as is practicable.

Provided, however, that on or before the first day of April of any year on demand of the owners of the Sevier Bridge Reservoir, the Sevier River Commissioner or Commissioners shall measure and determine the amount of water available in the Piute Reservoir and in the Sevier Bridge Reservoir to satisfy the prior rights of the owners of the Sevier Bridge Reservoir. If said measurement and determination shall show that the quantity of water stored in said two reservoirs and all accruals thereto will be less in amount than is necessary to satisfy the prior rights of the Sevier Bridge Reservoir, then and in that event the Water Commissioner or Commissioners shall upon demand of the owners of the Sevier Bridge Reservoir, at any time on or after April 1st of any year, cause the waters so stored in the Piute Reservoir and belonging to the owners of Sevier Bridge Reservoir to be turned down into the Sevier Bridge Reservoir but with the further provision that such demand and such release of water from the Piute Reservoir shall not be in derogation of the rights of the primary users in the Sevier Valley to anticipate storage, as such rights are fixed by the separate provisions of this decree.

Any owner of either the Piute Reservoir or Sevier Bridge Reservoir shall, after sixty days notice in writing to all other owners, and at its own expense, be permitted to make or have made a re-survey of the said reservoirs, or either of them; and upon the completion of such re-survey any owner may make appli-
