

an interlocutory basis with the right of the State Engineer or any interested water user to petition the Court at any time to modify either the duty of water or the period of use for good cause shown.

NOW, THEREFORE, IT IS ORDERED that the duty of water for irrigation purposes in the area encompassed within the Paria River Division is fixed at four acre-feet per acre of land on an interlocutory basis, and that the period of use from April 1st to October 31st is likewise approved on an interlocutory basis. The State Engineer or any interested water user may petition the Court at any time to request that the duty of water or the period of use be modified. Any party filing such Petition shall give reasonable notice thereof to all counsel involved.

IV. RESOLVED ISSUES

It having been stipulated and agreed between the State Engineer and the affected parties that the Proposed Determination of Water Rights for the Paria River Division shall be amended as follows:

A. It is necessary to make certain changes in the ownership of Water User's Claims owned by Resources Company, New Albion Resources Company and Mono Power Company. Said title changes are set forth in the Protest filed by these parties dated October 20, 1976, and the State Engineer agrees to incorporate said title changes in his Errata to the Proposed Determination of Water Rights which will be published at a subsequent time.

B. The Protest filed by Malen Mecham has been withdrawn, and all claims asserted in said Protest are hereby dismissed.

V. CONFIRMATION OF RIGHTS NOT PROTESTED

The State Engineer has published the Proposed Determination of Water Rights for the Paria River Division of the above-entitled general adjudication proceedings, and copies of said
