

V.

The parties hereto and their successors in interest shall promptly install and perpetually maintain suitable and efficient head-gates, control works, and measuring devices at or near their respective points of diversion; and all water herein allowed and decreed shall be measured at or near said points of diversion. Said works and devices shall be built and installed in accordance with plans and specifications approved by the official charged with the duty of supervising the distribution of water hereunder, subject in all cases to review by this court. All such devices shall be of such design as to accurately measure the amount of water diverted. All such head-gates, control works and measuring devices and gauges shall at all times be subject to inspection by any party to this action, and by proper officials or water masters having jurisdiction over the distribution and diversion of said water; and no dam or other obstruction to the flow of the stream shall be maintained so as to divert water from the channel of the stream except through ditches or other works provided with such head-gates, control works and measuring devices; and each of the parties hereto shall be and they and each of them are hereby perpetually enjoined from diverting from the channel of the stream or its tributaries any water through any ditch, conduit or other device not provided with head-gates, control works or measuring devices, provided that in case of diversions through pipes for power purposes, measuring devices may be dispensed with where the quantity of water diverted may be otherwise determined by calculations.

VI.

Subject to the power and duty of this court to supervise and enforce the administration of this decree from time to time an occasion may require and to that end appoint special commissioners whenever necessary so to do, for which jurisdiction is hereby especially reserved, the State Engineer of Utah and his duly appointed deputies and assistants, or such other state official as may be charged by law with the distribution of water, or such water commissioner as this court
