To: "waterrights@utah.gov" <waterrights@utah.gov>

In response to the meeting held in Eskdale on September 26 2019, I have a couple of comments.

First, the outline from the BLM I do not think is a good idea. I think it is a sly way for the BLM to control all the remaining water available for use in Snake Valley. Area 2 and 3 is where people live and farm. Area 1 is BLM controlled land and they have restrictions that would not allow for anymore water development.

Second, I believe that water should not be allowed to be pumped out of the Snake Valley basin to distant basins. From here to Cedar City, Delta, Salt Lake City, etc.

Thanks John
