Cedar City,UT 84721-0506

Responding to your draft Cedar City Valley Groundwater Management Plan :

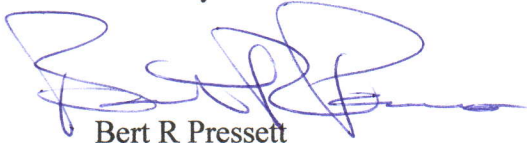

It has been my pleasure dealing directly with Groundwater Basin in Cedar Valley for the past 34 Years.

Having this practical experience and obvious observations using a Down Well Camera I feel that your approach to Reduction of Water Rights in Cedar Valley is Premature,

Also your use of Company's name in your draft under Depletion Calculations is not authorized.

If you need help in finding a reasonable approach to Water Rights please contact me at 435-559-2600.

Sincerely Yours

Bert R Pressett
