646 North Main St. Po Box 506 Cedar City, Ut 84721-0506

RE: Cedar City Valley Groundwater Management Plan

To Whom It May Concern:

In reading all the of the documents available online, I would strongly urge you to delay the Phase 1 cuts for 30 years instead of the 15 proposed. These cuts are going to do tremendous financial damage to the water right holders. Another possible solution is to combine the Phase 1 and 2 cuts and do them both at the 30-year mark. The economic impact of the cuts would then be spread out over time instead of so precipitously occurring in 15 years.

SINCERELY,

JUSTIN LEE
