Alternatively, dial (US) +1 620-359-7451 PIN: 709 247 587#

Purpose: The State Engineer is not the official office of record of title for water rights. However, once a water right holder updates title with the appropriate county recorder's office, said holder must also update title with the State Engineer, aka the Division of Water Rights. A water right holder updates title with the Division of Water Rights via a Report of Conveyance, which has an associated fee. In an effort to represent the true cost to process certain documents the State Engineer is proposing to increase the fees collected for the submission of a Reports of Conveyance.

A recording of the public meeting will be viewable on-line at <http://www.waterrights.utah.gov/meetinfo/oldmeet.asp>. Questions and comments may be sent via email to waterrights@utah.gov with the subject line Title Fees. For more information, please contact the Utah Division of Water Rights at 801-538-5282.
