## NOTICE OF PUBLIC MEETING REGARDING MODIFICATION OF THE DISTRIBUTION SYSTEM FOR BRUSH CREEK DRAINAGE

Dear Water User:

Our records indicate you are an owner of a water right within the Brush Creek Drainage near Jensen, Utah. In accordance with Utah Administrative Rule R655-15-5(4)(b) the Utah State Engineer will be conducting a public meeting to discuss modification of the existing Brush Creek distribution system to transfer from Court administration to administration by the State Engineer's Office. You are invited to participate by attending this public meeting in person or online. This meeting will be held at the Vernal City Community Room in Vernal, Utah.

DATE: September 19, 2023

TIME: 6:30 pm

LOCATION: Vernal City Community Room, 374 E Main St, Vernal, Utah

ONLINE: <https://www.waterrights.utah.gov/meetinfo/2023/m20230919/>

### Agenda for September 19, 2023 Public Meeting

1. Meeting Introduction by Assistant State Engineer Ross Hansen
2. Introduction of Current Committee Members, Reasons for Transferring the System to State Administration by Brush Creek President.
3. Distribution System Historical Overview, Boundaries, and Representative Groups by Regional Engineer Andrew Dutson
4. Purposes, Policies, and Procedures to be used in Operating the Distribution System by Distribution Engineer Tim Heyrend
5. Proposed Budget Modifications and Assessment Methodology by Tim Heyrend
6. Updating title to Water Rights by Vernal Regional Office Personnel.
7. Public Comments and Questions – Discuss Next steps.- Ross Hansen

In accordance with the Americans with Disability Act, individuals needing special accommodations should notify Marianne Burbidge at (801) 538-7370 at least three days prior to the meeting.

Information from the meeting will be posted on the Utah Division of Water Rights website at <https://waterrights.utah.gov/meetinfo/oldmeet.asp> as a resource for those who are unable to view the meeting live or require additional information.

### Proposed Organization of the Brush Creek Distribution System

The Brush Creek Distribution System Committee is formed in accordance with R655-15-9(2)(b) such that the decisions and recommendations of the committee need no ratification by the water users of the distribution system. An annual public meeting shall be held at the beginning of the year with the Brush Creek System Committee, the State Engineer's Office, and any Brush Creek water users and members of the public who wish to attend. The budget, assessment, and Committee Leadership shall be decided and voted on at the annual meeting (R655-15-12). Meetings of the Distribution System Committee shall be held as necessary to fulfill the purposes of the Distribution System. Committee meetings may be held in lieu of or in addition to the Annual Meeting with the water users as determined by the State Engineer. The Committee Chair and/or vice chair shall be elected to a three-year term at a Committee Meeting (R655-15-13).

Each Committee Member shall serve a three-year term or until their successors are duly elected and qualified by the assessment account holders, the mutual irrigation company, and/or the water right holders in that group or district. An assessment account is established for each water right holder within the boundaries of each group. Groups are organized and defined based on geographical location along Brush Creek (see map). Groups are composed of water right holders where the authorized water right point of diversion is located within the delineation of the group boundary.

The Brush Creek Distribution System Committee is composed of nine members representing each of the following groups or districts:

- 1) Upper Sunshine Canal Company Group (permanent seat, one vote). Comprising all users on Little Brush Creek and streams tributary thereto with diversions above the outlet of the Sunshine Ranches Inc. Salvage Flume which bypasses the "sinks" on Little Brush Creek. Includes all users on the upper Sunshine Canal and pipeline.
- 2) Lower Sunshine Pipeline Group - (permanent seat, one vote) Comprising all corporate and individual users with a right to divert the waters of Brush Creek from the lower Sunshine pipeline, and other users of East Park Reservoir who are not part of the Upper Sunshine Canal Company Group.
- 3) Oaks Park Reservoir Group (permanent seat, one vote). Comprising Oaks Park Reservoir (Ashley Valley Reservoir Company) and all individual and corporate users who may establish a right to divert water from Big Brush Creek and its tributaries above the Ratliff diversions.
- 4) Brush Creek Private Users Group (permanent seat, one vote). Comprising all users with a right to divert water from Brush Creek and its tributaries from the Ratliff diversion to, but not including the Sunshine Canal Diversion. Includes all users on Little Brush Creek.

5) Burns Bench Irrigation Company (two permanent seats, one vote each). Comprising all corporate and individual users with a right to divert the waters of Brush Creek from the Burns Bench pipeline.

6) Murray Ditch Pipeline Company Group - (permanent seat, one vote). Comprising all individual users with a right to divert the waters of Brush Creek from the Murray pipeline.

7) Burton Pipeline Group - (permanent seat, one vote) Comprising all corporate and individual users with a right to divert the waters of Brush Creek from the Burton pipeline.

8) Uintah Water Conservancy District (UWCD) - (permanent seat, one vote, appointed by the UWCD board of Directors).

#### Method of Calculating Assessments

The method of calculating the assessment for each individual account is as follows:

All accounts bear a pro-rata share of the total assessment based on the combined cubic feet per second (cfs) limit of all water rights along brush creek and its tributaries. A minimum assessment for smaller water rights may be charged, as decided by the Committee at the annual meeting. Each account, with its corresponding flow rates, is shown in the appendix. The information in the appendix may be modified at any time to correct mistakes or to update accounts without an official Order of the State Engineer.
