Re: Ground-water Districts for Pahvant Valley

Dear Water User:

Since the public meeting that was held in Fillmore on February 24, 1994, I have received a number of comments concerning certain aspects of our ground-water management plan, particularly concerning a proposed change in the boundaries of the ground-water districts.

At that meeting, I outlined a change in district boundaries which I felt would be advantageous to administering the valley's water resources. These proposed boundaries were based on a consideration of pumping patterns and recharge sources.

Since this proposal was made, I have received a number of comments, in writing and in person, on this matter. Virtually all of the comments were negative. Most dealt with the possible economic consequences of the boundary proposal. For the past thirty years, it appears that a great many economic decisions and financial arrangements have been made based on the old district boundaries.

In light of these comments, I have decided to leave the ground-water district boundaries as they have been since 1965 and to incorporate said boundaries into the management plan.

This policy modification will be effective immediately.

For further information or comments, please contact either our Richfield office or Salt Lake City office. The address and phone number of our Southern Regional office is:

Division of Water Rights  
Southern Regional Office  
130 North Main Street  
P.O. Box 563  
Richfield UT 84701-0563

Phone: 896-4429 FAX: 896-6158

The Salt Lake City address and phone number is:

Division of Water Rights  
1636 West North Temple  
Room 200  
Salt Lake City UT 84116-3156

Phone: 538-7389 FAX: 538-7467

Again, I thank you for your interest in these matters and look forward to a mutually beneficial working relationship with you in the future.

Sincerely,

A handwritten signature in cursive script that reads "Robert L. Morgan".

Robert L. Morgan, P.E.  
State Engineer
