Subject: Proposed Policy Amendment

Dear Matt:

The Central Utah Water Conservancy District (CUWCD) appreciates the opportunity to provide comments on the 2009 Proposed Water Rights Policy Amendment. The CUWCD supports the proposed policy amendment. We appreciate the Division's efforts to meet the flow recommendations in the Biological Opinion that was issued for the operation of Flaming Gorge Reservoir by the U.S. Fish and Wildlife Service. The CUWCD recognizes the Division's continuing efforts to balance the need to recover the endangered fish species while allowing water rights to developed.

Please contact me if you have any questions at (801) 226-7147 or sarah@cuwcd.com.

Sincerely,

A handwritten signature in cursive script that reads "Sarah Sutherland".

Sarah Sutherland
Environmental Programs Manager
