This letter is in response to the water meeting that was held in Milford on February 4, 2014.

It is my understanding that the water in the mentioned areas have been over allocated. Bearing that in mind and the fact that we are in a drought period I feel that no more water should be allocated plus the water that is in Beaver County should stay here.

We need to put a halt to any new water ~~issue~~ allowances at this time. With the drought and more water usage and less water coming in this is a situation that bears immediate attention.
