GENERAL ADJUDICATION
SALT LAKE COUNTY EAST DIVISION
JORDAN PARK SUBDIVISION
AREA NO. 57, BOOK 7

Salt Lake County Civil No. 365729824

Kent L. Jones, P.E., State Engineer of the State of Utah, respectfully submits this report and recommendation to the Court.

1. Geographical Area Covered. This General Adjudication, known as the Utah Lake and Jordan River General Adjudication, includes all water sources, both surface and underground, within the drainage of the Utah Lake and Jordan River in Utah, Salt Lake, Davis, Summit, Wasatch, Sanpete, and Juab Counties in Utah. This Proposed Determination is limited to water rights with points of diversion in the Jordan Park Subdivision of the Salt Lake County East Division of the Utah Lake and Jordan River General Adjudication. The Jordan Park Subdivision is the area on the map shown on page vii. The Utah Division of Water Rights has designated the Proposed Determination for this area as Area 57, Book 7.

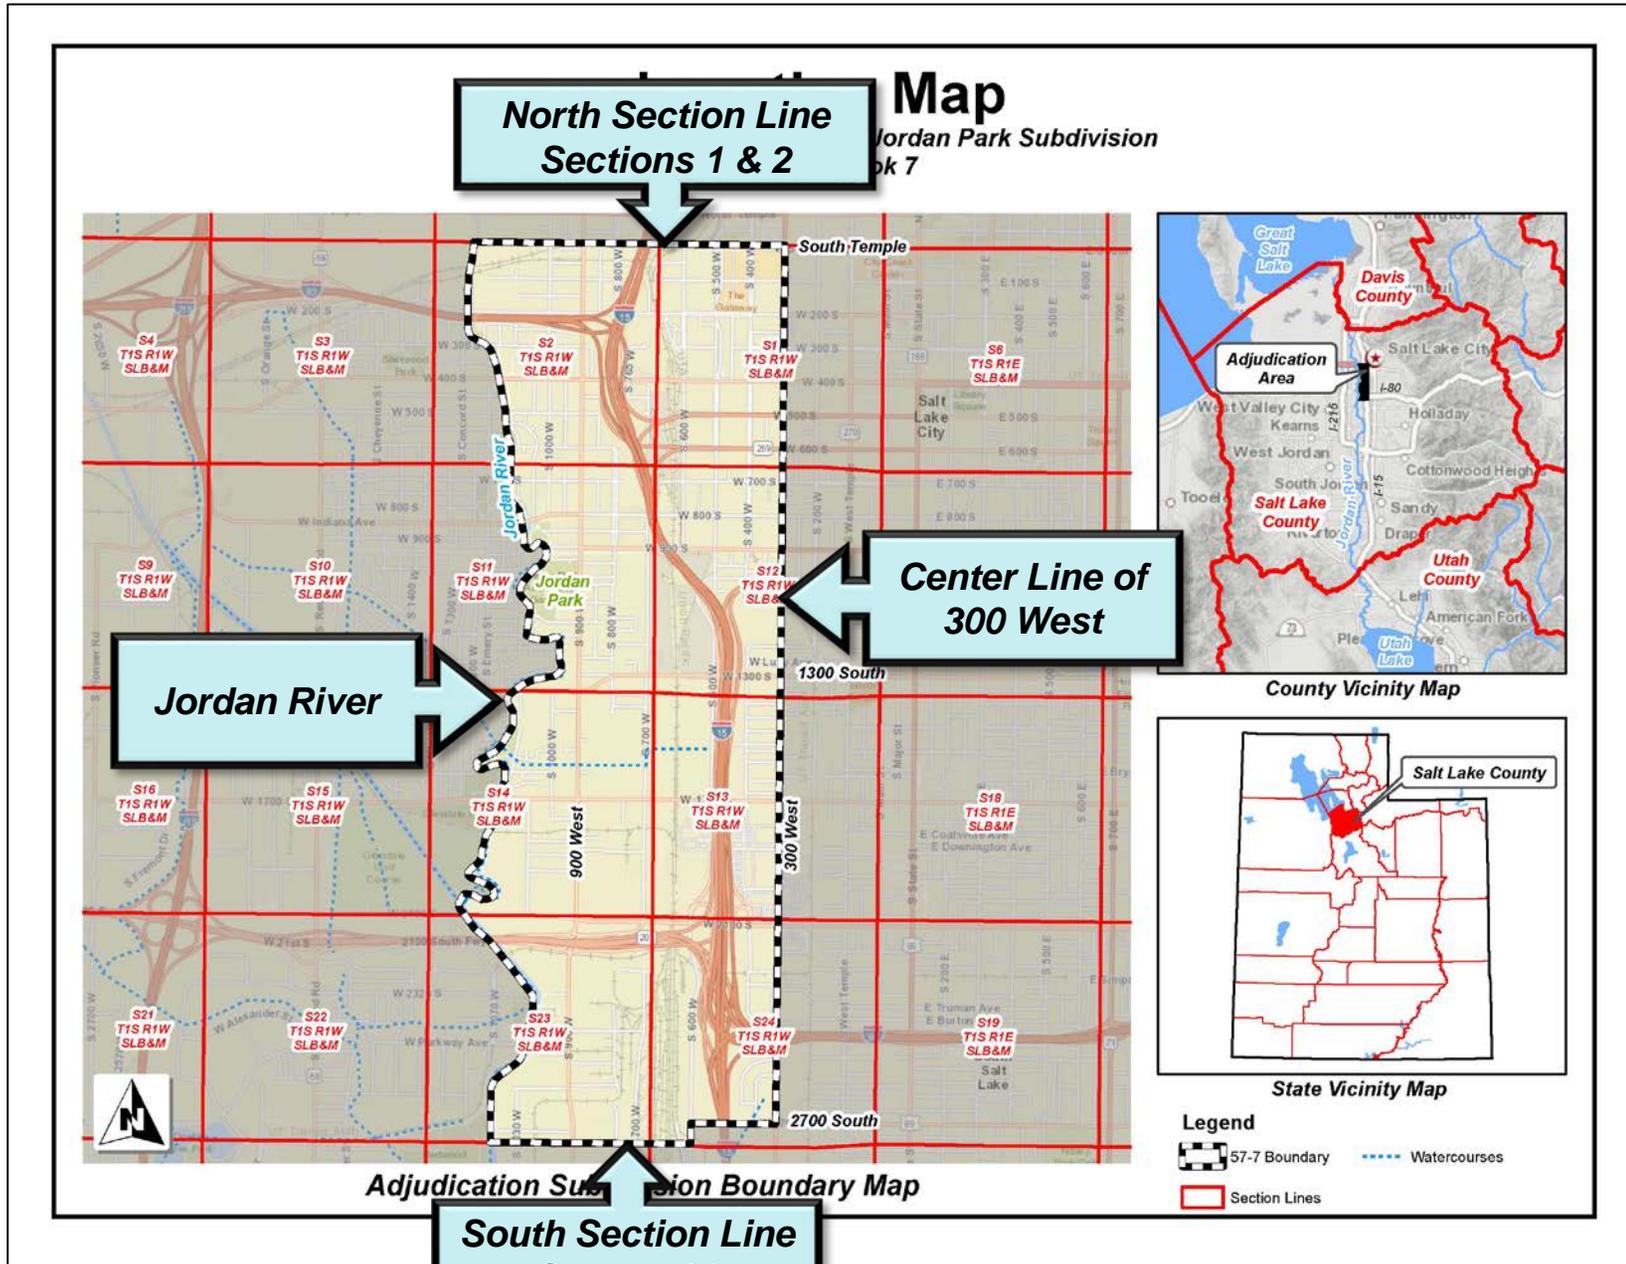

2. Commencement. On September 1, 1944, the Court ordered the State Engineer to make a determination and adjudication of all rights to the use of water of Utah Lake and Jordan River and their tributaries in Utah and Salt Lake Counties. On June 21, 1972, the Court issued an order clarifying that the adjudication area includes all the rights to the use of water, both surface and underground, within the

drainage area of Utah Lake and Jordan River and their tributaries in Utah, Salt Lake, Davis, Summit, Wasatch, Sanpete, and Juab Counties. The Court also ordered that the title of this action be amended to read, "In the Matter of the General Determination of the Rights to the Use of all of the Water, Both Surface and Underground, Within the Drainage Area of Utah Lake and Jordan River in Utah, Salt Lake, Davis, Summit, Wasatch, Sanpete and Juab Counties in Utah."

3. State Engineer's Activity. The State Engineer has followed the requirements of Title 73, Chapter 4 of the Utah Code. He has given the required notices, served and published summons, prepared and filed a List of Unclaimed Rights with the Court, completed hydrographic surveys, and evaluated claims from water users within the area. Prior to making the recommendations in the Proposed Determination, the State Engineer has given careful consideration to the Statements of Water User's Claims filed in the Jordan Park Subdivision. To the best knowledge of the State Engineer, this Proposed Determination contains all rights to the use of water with points of diversion located within the Jordan Park Subdivision for which a claim was timely filed or for which the Court has excused the late filing.
