PURPOSE

This Tabulation of Ute Indian Water Rights is prepared pursuant to and in accordance with the Ute Indian Water Compact between the Ute Indian Tribe of the Uintah and Ouray Indian Reservation, Utah, the State of Utah and the United States of America concerning the water rights of the Ute Indian Tribe. The purpose of this Tabulation is to fully identify and define all federal reserved water rights of the Ute Indian Tribe.

FORWARD

In December, 1960 the Ute Tribe submitted to the Utah State Engineer a report entitled Water Right Claims, Uintah and Ouray Indian Reservation, Utah, prepared by E. L. Decker, tribal engineer, and commonly referred to as the Decker Report. This report was prepared to identify both the Tribe's present irrigated acreage and also those lands that are susceptible to irrigation, for which a water right was claimed under the doctrine expressed in Winters v. United States, 207, U.S. 564 (1908). The acreages listed in the Decker report, as amended, were used as a basis for this Tabulation.

The Decker Report divided the lands into seven different groups for identification purposes, which are incorporated herein:

Group (1): Lands included within the Uintah Indian Irrigation Project, the water right to which has been certificated by the State of Utah and included within Federal Court Decrees adjudicating water rights of the Lakefork, Yellowstone, Uinta and Whiterock Rivers.

Group (2): Lands included in the Uintah Indian Irrigation Project, the water right to which has been certificated by the State of Utah, served from the Duchesne River, including the townsites of Duchesne, Randlett and Myton.

Group (3): Lands that are or can be served from the Duchesne River through the facilities of the Uintah Indian Irrigation Project which have not been certificated by the State of Utah.

Group (4): Lands which have been found to be productive and economically feasible to irrigate from privately constructed ditch systems on the Duchesne River or its tributaries above the Pahcease Canal.

Group (5): Lands which have been found to be susceptible to irrigation and are proposed to be developed within the Central Utah Project.

Group (6): Lands lying east of the Green River served from the White River for which Applications to Appropriate water were once filed with the State of Utah.

Group (7): Lands lying east of the Green River which have been found to be productive and economically feasible to irrigate from privately constructed ditch systems now in operation or to be constructed along the Green River, White River, Willow Creek, Bitter Creek, Sweet Water Creek and Hill Creek.

A summary of the Ute Indian Tribe's total irrigable acreage, maximum allowable depletion and diversion requirement for each of the land groups, by stream, are contained in tables 1, 2 and 3, respectively.

Delivery schedules specifying the quantity of water to be diverted from the various streams are shown in tables 4 through 7. The quantity of water to be diverted into the various canals and/or ditches shall be determined based on the irrigable acreage as shown in the acreage tabulation, times the flow rate per acre corresponding to the period of time on the appropriate delivery schedule. No delivery of water shall be made to lands until the lands are developed or appropriate change application filed.

For the group 1 lands the diversion requirement is 3.40 acre-feet per acre, of which 3.00 acre-feet per acre is to be supplied from direct streamflow in accordance with the appropriate delivery schedule and the remaining 0.40 acre-feet per acre is to be supplied from storage under the proposed Uintah and Upalco Uints of the Central Utah Project. Such water delivered from storage shall assume the priority date of the Water and

Power Resources Service (Bureau of Reclamation) water right to accomplish the equitable allocation of water to all subscribers of the projects.

Within the group 1 lands there are 9,300 acres commonly referred to as the Midview Exchange lands. As a result of this exchange these lands are now served from the Duchesne River and thus have a diversion requirement of 4.0 acre-feet per acre. Water for these lands shall be supplied in accordance with terms of the Midview Exchange Agreement.

The priority date of the group 1 through 5 lands is October 3, 1861, except for water supplied from storage in the Central Utah Project. All water delivered to groups 1 and 5 lands from storage in the Central Utah Project shall be assigned the priority date of the Water and Power Resources Service (Bureau of Reclamation) filing to accomplish the equitable allocation of water to all subscribers of the Project. The priority date for those group 5 lands to be transferred to Leland Bench and supplied from the Green River shall be October 3, 1861. The priority date of the group 6 and 7 lands is January 5, 1882, except those group 7 lands bearing the notation "to be determined" under the Priority Date column in the Tabulation. As to those certain group 7 lands the priority date shall be determined by mutual agreement, among the parties to the Compact on or before August 1, 1980, or thereafter by binding arbitration using the following guidelines:

1. All matters are deemed resolved herein except the issue of the priority date for certain parcels of group 7 lands. That issue shall be submitted to an arbitrator who shall have the authority under Utah Revised Code Sections 78-31-1, et seq., to decide the unresolved factual issue as to the precise priority date for any parcel of group 7 lands specified in the Tabulation.

2. To reach a determination of the priority date, either the State of Utah or the Ute Tribe may request a panel of five water law experts. With the State of Utah striking first, the Ute Tribe and the State shall alternately strike names from the list until one name remains and such person shall be the arbitrator.

3. The decision of the arbitrator shall be final and shall conclusively determine the priority date in question.

4. The procedures of the American Arbitration Association shall govern any proceedings and the costs and expenses of the arbitrator shall be shared equally by the State and the Ute Tribe.

The acreage tabulations herein lists the land group, source of supply, canal or ditch (if applicable), point of diversion, irrigable acreage and place of use. The quantity of land to be irrigated is limited to the acreage listed in the Irrigable Acreage Column and shall be located within the area described in the Place of Use Column.

MUNICIPAL AND INDUSTRIAL WATER

In addition to the quantities of water set forth herein for the irrigable acreage of the Ute Indian Tribe, the United States of America in trust for the Ute Indian Tribe is allocated the depletion of 10,000 acre-feet of water annually for municipal, industrial and related purposes. To the extent that the tribe or its members use reserved water for domestic, municipal, industrial or related uses, the quantity so used shall be included within said 10,000 acre feet unless a transfer of water from land listed in the tabulation is properly made. The priority date for the water provided under this paragraph is October 3, 1861.

Irrigable Acreage Diversion Requirement - Acre Feet per Acre Diversion Requirement - Acre Feet
--

^{1/}Midview Exchange Lands.

^{2/}The 3.40 acre-feet per acre diversion requirement is supplied by 3.00 acre-feet per acre from direct flow and 0.40 acre-feet from proposed Water and Power Resources Service storage projects.

^{3/}Lands to be developed in place and supplied under the Uintah Unit of the Central Utah Project.

^{4/}Lands proposed to be transferred to Leland Beach and supplied from the Green River.

TABLE 4

The river headgate diversion requirement per acre of land for the Group 1 Lands served from the Uinta River and Lakefork River Systems, is 3.40 acre-feet per acre, of which 3.00 acre-feet per acre is supplied from direct flow in accordance with the following delivery schedule. The remaining 0.40 acre-feet per acre shall be supplied from storage under the proposed Uintah and Upalco Units of the Central Utah Project as stated herein.

GROUP 5 LANDS PROPOSED TO BE TRANSFERRED TO LELAND BENCH

Group	Source	Irrigable Acreage	Area and Location
5	Duchesne River	1359.66	<u>Little Valley:</u> Sec. 7, 17, 18, 20, 21, 27, 28, 29, and 34, <u>T1S, R7W, USB&M;</u> Sec. 12, 13, and 14, <u>T1S, R8W, USB&M.</u> Total acreage: 1462.0
		2244.09	<u>Ouray Valley:</u> Sec. 15, 21, 22, 23, 26, 27, 34, 35, and 36, <u>T3S, R2E, USB&M;</u> Sec. 1, 2, 12, and 13, <u>T4S, R2E, USB&M;</u> Sec. 18, 29, 30, and 32, <u>T4S, R3E, USB&M.</u> Total acreage: 2413.0
5	Rock Creek	9766.86	<u>Towanta Flats:</u> Sec. 31, <u>T1N, R4W, USB&M;</u> Sec. 16, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, and 36, <u>T1N, R5W, USB&M;</u> Sec. 6, <u>T1S, R4W, USB&M;</u> Sec. 1, 2, 3, 4, 5, and 6, <u>T1S, R5W, USB&M.</u> Total acreage: 10,502.0
		804.45	<u>Rock Creek Bottoms:</u> Sec. 9, 16, 21, 22, 26, 27, 34, and 35, <u>T1N, R6W, USB&M;</u> Sec. 1 and 24, <u>T1S, R6W, USB&M;</u> Sec. 18, 19, and 20, <u>T2S, R5W, USB&M;</u> Sec. 12, <u>T2S, R6W, USB&M.</u> Total acreage: 865.0
5	Yellowstone River	1737.24	<u>Mud Springs:</u> Sec. 30 and 31, <u>T1N, R3W, USB&M;</u> Sec. 13, 14, 23, 24, 25, 26, 27, 34, and 35, <u>T1N, R4W, USB&M.</u> Total acreage: 1868.0
		711.45	<u>Cottonwood:</u> Sec. 34, 35, and 36, <u>T1N, R3W, USB&M;</u> Sec. 1 and 2, <u>T1S, R3W, USB&M.</u> Total acreage: 765.0
		632.40	<u>Bluebell Bench:</u> Sec. 6 and 7, <u>T1S, R2W, USB&M;</u> Sec. 23, 26, and 35, <u>T1S, R3W, USB&M.</u> Total acreage: 680.0
		318.06	<u>Coyote Basin:</u> Sec. 20, 21, 28, 32, 33, and 34, <u>T1N, R2W, USB&M.</u> Total acreage: 342.0

Group	Source	Irrigable Acreage	Area and Location
5	Uinta River	827.70	<u>Uintah Bottoms:</u> Sec. 3, 4, 9, and 10, <u>T1N, R1W, USB&M;</u> Sec. 28, 33, and 34, <u>T1S, R1E, USB&M.</u> Total acreage: 890.0
5	Whiterocks River	1407.09	<u>Deep Creek:</u> Sec. 6, 7, 8, 9, 15, 16, 17, 18, 19, 20, 21, and 28, <u>T1N, R2E, USB&M.</u> Total acreage: 1513.0
	Total Group 5 Lands Transferred to Leland Bench	19,809.0	

PROPOSED LELAND BENCH DEVELOPMENT

Group	Source Point of Diversion	Irrigable Acreage	Place of Use
	Green River Sec. 5, T5S, R3E, USB&M.	19,809.0	Leland Bench: Sec. 22, 23, 24, 25, 26, 27, 33, 34, 35, and 36, <u>T3S, R1E, USB&M</u>; Sec. 14, 15, 19, 20, 21, 22, 23, 26, 27, 29, 30, 31, 32, 33, 34, 35, and 36, <u>T3S, R2E, USB&M</u>; Sec. 1, 2, 3, 4, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 21, 22, 23, and 24, <u>T4S, R1E, USB&M</u>; Sec. 1, 2, 4, 5, 6, 7, 8, 9, 10, 12, 13, 14, 15, 16, 17, 18, 20, 21, 22, 23, 24, 25, and 36, <u>T4S, R2E, USB&M</u>; Sec. 18, 19, 29, 30, 31, and 32, <u>T4S, R3E, USB&M</u>; Sec. 1, <u>T5S, R2E, USB&M</u>; Sec. 6, <u>T5S, R3E, USB&M</u>.
